

Louis Ross

Systems Administrator — Cloud & Infrastructure Engineer

United Kingdom | louisross980@gmail.com | (+44) 07592 760393 | linkedin.com/in/louis-ross | github.com/rossy167

PROFILE

Systems administrator with 5+ years in cloud and infrastructure roles, supporting and administering Azure and AWS environments across SaaS and enterprise settings. Experienced in identity and access management, endpoint management, infrastructure automation, security and compliance, and operational monitoring. Scripting experience across PowerShell, Python, and Bash. BSc Computer Science, University of Hertfordshire.

CORE SKILLS

- Cloud Platforms — Microsoft Azure (IaaS/PaaS: VMs, networking, storage, App Services), AWS (EC2, VPC, S3, IAM), GCP, hybrid cloud environments
- Identity & Access (IAM) — Entra ID / Azure AD, Active Directory, Okta, RBAC, conditional access, MFA, SCIM provisioning, identity lifecycle management
- Endpoint Management (MDM) — Microsoft Intune, Autopilot, SCCM, Jamf, Samsung Knox, ChromeOS, Google Workspace, Windows Server, DNS, DHCP, Group Policy
- Automation & Scripting — PowerShell, Python, Bash, Node.js for provisioning, diagnostics and operational tooling
- Monitoring & Incident — Prometheus, Grafana, New Relic, CloudWatch, alerting pipelines, incident management, 24/7 on-call, SLA-driven operations
- Security & Compliance — ISO 27001, Cyber Essentials, vulnerability management, penetration testing coordination, simulated phishing campaigns

PROFESSIONAL EXPERIENCE

System Administrator — Inspiro Learning

Jul 2024 – Present

- Administer and maintain Azure cloud infrastructure across a distributed enterprise environment, managing security posture, governance controls, and platform improvements alongside an external MSP.
- Manage Entra ID for the full identity lifecycle: user and group provisioning, conditional access policies, RBAC, MFA enforcement, and SCIM-based SSO integrations.
- Contribute to ISO 27001 and Cyber Essentials compliance, supporting evidence packs, control mapping, and audit readiness.
- Develop PowerShell automation scripts for provisioning, diagnostics, and operational reporting.
- Manage Intune and Autopilot for Windows device fleet management; administer Samsung Knox for Android devices; coordinate Windows 11 enterprise migration.
- Maintain technical documentation and runbooks for infrastructure processes and stakeholder handoffs.

System Administrator — Bob's Business Limited

Jun 2022 – Apr 2024

- Managed AWS cloud infrastructure (EC2, VPC, S3, IAM) as the primary cloud platform for a cybersecurity SaaS business, maintaining reliability, security, and performance across production environments.
- Used Terraform for infrastructure-as-code deployments across development, staging, and production environments.
- Implemented monitoring and alerting using Prometheus, Grafana, and New Relic; participated in 24/7 on-call support, resolving critical incidents within SLA.
- Contributed to ISO 27001 and Cyber Essentials compliance; provided 3rd line technical support across infrastructure, identity, and access control.
- Administered Jamf for macOS and iPad device management; managed ChromeOS and Google Workspace.
- Developed Python and Node.js automation scripts in production for incident response and operational workflows.

IT Support Analyst — Utility Warehouse (Telecom Plus PLC)

Jun 2018 – Nov 2021

- Administered Active Directory, SCCM, and Jamf across a 1,500+ user enterprise estate; managed DNS, DHCP, Group Policy, Hyper-V, and Windows Server environments.
- Administered Okta for identity and access management across permissions and devices.
- Developed PowerShell automation scripts to reduce manual administration overhead.
- Supported AWS infrastructure migration using Terraform and Desired State Configuration (DSC).
- Delivered Tier 1 and Tier 2 support across hardware, software, and connectivity issues.
- Worked within ServiceNow and Jira for incident management, queue administration, and escalation tracking.

EDUCATION

BSc Computer Science — University of Hertfordshire (2016 – 2021)

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104) — in progress
